

SMALL CREDIT UNION COMMITTEE

Purpose: The Small Credit Union Committee will track issues and assess the impact of public policy on small credit unions. The committee will also promote unity between credit unions of all sizes and strive to defend against any and all threats to their cooperative, not-for-profit, democratic structure. Although there is no precise measure of “small,” the committee will use \$100 million in assets as a rough definition, recognizing that factors other than size may determine the characterization of a “small” credit union.
